PROGRAM DESCRIPTION:

If you are interested in working with children who are learning English as a second language, you need to have strong English skills yourself. You need to communicate with young ESL learners by using clear and correct English. It is also important to have the necessary teaching vocabulary to work with them. ILSC'S TYL Program will help you achieve these goals. We help you improve your English skills and teaching vocabulary. We also give you the necessary confidence to work with children in English. We do this by focusing on interesting topics like how children develop and learn, as well as second language acquisition activities, games, crafts and songs that kids love. We also ensure that you do a number of presentations and provide you with a one week practicum in a Canadian school or organization of your choice. Practice does make perfect!
