Dear Friends at International Language School of Canada Vancouver,

On behalf of Médecins Sans Frontières / Doctors Without Borders (MSF), I would like to thank you for responding to those in need and helping us deliver assistance to the world's most vulnerable populations.

MSF is dedicated to preserving the lives and dignity of people whose health and safety are threatened by natural or human disasters, such as the cyclone in Myanmar and the conflict in Darfur, Sudan. We are often the first medical relief organisation to arrive at the scene of an emergency. Your support means that MSF can provide the medicine and trained personnel needed whenever these emergencies arise.

MSF also provides ongoing assistance to people living in places where health infrastructures are insufficient or even non-existent. Every year, millions of people die from infectious diseases like tuberculosis, malaria and HIV/AIDS, simply because the medicines that could cure them are priced out of their reach or unavailable where they live. MSF works to ensure that those who are neglected and most at risk have access to effective and affordable medicine and care, while offering testing, health education and programmes aimed at disease prevention so more lives can be saved. Our field workers also act as witnesses and speak out about the plights of populations in danger. All this is made possible through the generosity of caring individuals like you.

To find out more about our medical aid projects in close to 60 countries worldwide, please visit www.msf.ca or contact us by telephone, email, letter or fax.

Again, thank you for your support!

Sincerely,

Marilyn McHarg
General Director
MSF Canada
